

SCHULER MS360

Vertical Mixer

Quality Built To Last Longer

The Schuler MS360 vertical mixer may be the smallest **OVERLAPPING** twin auger that Schuler Mfg. has produced, but it's known for its creative innovation and ability to mix a wide range of feedstuffs, small hay bales, silage, grain, and by-products from corn, etc.

The MS360 boasts a capacity of 420 cubic feet with the rubber extension and with the AR200 steel augers, this machine is in it for the long haul to meet the demand of your feeding operation.

*Proudly built in the
USA By Schuler Mfg.
An Iowa Company*

SCHULER MFG. & Equip. Co., Inc.

63724 Richland Rd. Griswold, IA 51535-6668 USA
